

Add Distinguished Name to Adobe Entrust Signature

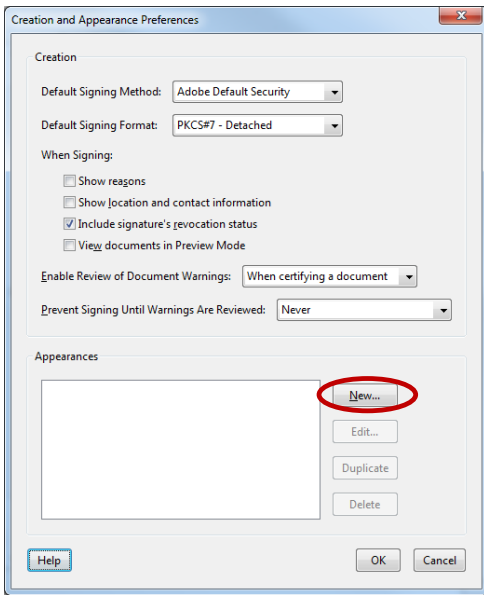

Step 1 - Open Acrobat Reader. From the top menu, select Edit, Preferences

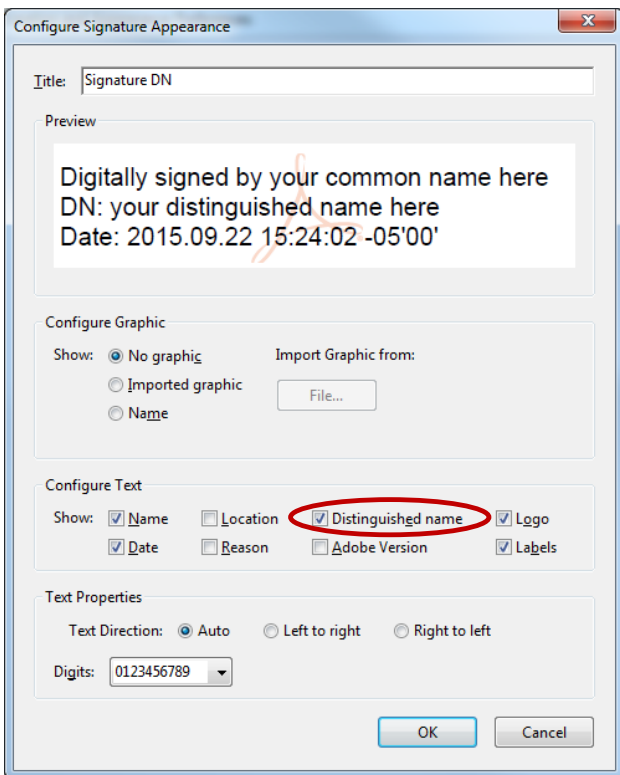

Step 2 – From the categories list, select Signatures and Click the more Button under Creation & Appearance

Step 3 - Under Appearances, click the New button.

Step 4 - In the Configure Signature Appearance Screen, enter a name in the Title Field (e.g Signature DN). Next, under Configure Text, make sure the Distinguished name checkbox is checked and click OK.

Click OK to the Creation and Appearance Preferences window. Click OK on the Preferences window. Entrust will now have an additional Appearance option.

Step 5 – When signing a document, click the Appearance Drop down and select the option you created in Step 4. Sign and save the document.
